Raise Funds For Your Ideas

We believe anyone with an idea should be able to start a fundraising campaign. With Tokenlab you can start your campaign with just a few clicks. Once the campaign starts it's easy to track performance and gauge user interest. At the end of the campaign you, as the owner, can issue tradable tokens to investors who have contributed to your campaign.

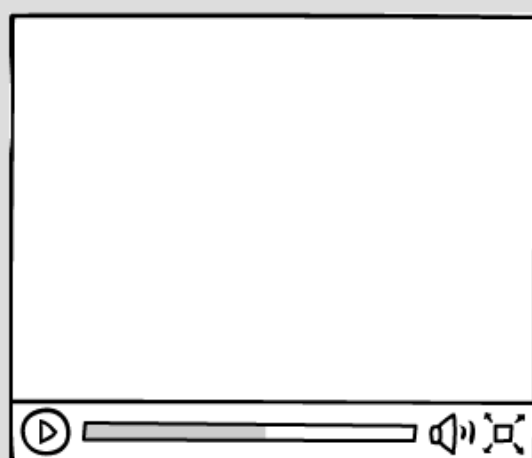

Invest In Your Favorite Ideas

With Tokenlab we will provide you with an easy to use interface to contribute towards your favorite blockchain projects. You can track the progress of your investments, create watchlists, view documentation and provide valuable feedback for the owners of the project.

Generate Income Investing In LAB

The main goal of any Token on the Blockchain is to provide value to the Token holders. We will provide value to LAB holders by issuing dividends funded through a portion of all future Tokens issued on the Tokenlab platform.

Michael Bloomberg

Owner and Founder of Bloomberg L.P.

I would highly recommend people to look into Tokenlab. It made the process of creating ICO's a piece of cake. Kudos to the team for creating such a high quality product.

Vitalik Buterin

Creator of Ethereum

I love how Expanse solved the problem of congestion on the blockchain with their hybrid approach.

UPDATE

The upcoming Tokenlab release will enhance user experience by providing data analysis on ICO performance vs initial amount raised.
